

# SafeSpace Products Testimonials

Ever since we moved into this home three years ago, our teenage children were constantly bickering, and our family just felt on edge. But now with these products, things just feel saner and more harmonious—my husband and I feel closer too. This is really profound—could the problem have been EMFs all along? All I know is, we are so very grateful for the harmony that exists in our home now and the SafeSpace products are staying! Lewin family, Fargo, ND

I have experienced several mysterious symptoms over the past few years which I can now attribute to electromagnetic sensitivity: mental fatigue, hot flashes, visual problems (loss of clarity), nausea, and general yuckiness. When I put the SafeSpace products in my home I felt like a very dark cloud was lifting off me! I know you probably hear this all the time, but it really was like a miracle! Since then, I continue to discover more ways that your products seem to be affecting my life. Leslie Connell, Decatur Georgia

I'm a chauffeur, so I spend hours behind the wheel, and I'd often feel exhausted while driving. The growing fatigue and monotony on the job was troubling, not to mention unsafe. My wife ordered your car-clearing device (SafeSpace II) and stuck it to the case I carry into the car at the start of my day, and since then I have noticed better alertness and a more even mood when interacting with my clients. This is significant given my profession. Thanks, Dick Gentry, Lombard, Illinois

While driving, I always became zapped of energy in a very short time. Now I have put the SafeSpace II in my car, and my energy remains stable and I feel much better when driving. Thanks for having such great products that really work. JP; Healing Practitioner, Fargo, ND

I've been looking for products like these, but I would never pay for technologies that haven't been researched. You have research and results. I appreciate the work you've put into this. And your prompt shipping. Sergei Bakut, Vernon, MA

I have to use my cellular phone constantly, but I would feel queasy in my stomach every time I was on a call for a long period of time. Since putting on the SafeSpace patch, that feeling is gone. It's made a huge difference! Arnold Estates, Designer - Toronto, Canada

I personally know somebody in my office—a major cellphone user—who was diagnosed with a tumor on the side of his head where his phone would always be [...] but I'm a real estate agent with two teenagers, so ditching my phone is not an option, and the kids would never even consider it. So thanks for these cellphone patches—I've been looking for something like this, and it makes me feel good that you have actual research. Jeannie Drayton, real estate agent, parent, Granville, CA

The SafeSpace Cell phone works unbelievably well! As soon as I put it on my phone, the really horrible way I'd feel using my cell phone disappeared! It completely neutralized the 'bad vibes' I'd feel... when holding the handset now I feel no pain or ill effects. Nancy Alcorn, Health Care Provider - Marin, CA

"..my cellphone would literally make me feel nauseous after no more than five minutes of use. Now with the phone sticker, I use it without any problem. " Dylan Alexander, Chiropractor, Reston, VA

Since putting in the GeoResonators, as well as the appliance patches, we have been sleeping so much better. A more restful, sound sleep, and better energy upon waking. That to me is priceless. Gertrude Donovan, Sydney, New South Wales, Australia

We put four GeoResonators on the four corners of our yard—we were thinking about our kids, who spend all day out there...we saw this as extra protection, because we live in a pretty built up area. We noticed three things over the summer: more kids would come play here than ever before (we were suddenly the fun yard!) My oldest daughter's chronic constipation cleared up without any change in her diet, and our flower garden produced twice the blooms. We don't like using chemical fertilizers, and I swear, I thought somebody had put some in without my knowing until we realized it was probably your device. I have been telling everybody about this product. Thank you! Corrine Gage, homemaker, Arlington, TX

It was so easy to plant the GeoResonators, and it made me feel good to do it, as though I was helping my little patch of earth heal. Carol Travis, Florist, Provo UT

We live near a big underground sewer pipe and have telephone, cable and electrical wires hanging very close to our home. When our property was tested for toxicity, it tested "high" until I planted four geo-resonators around our property. Since planting them, our property no longer tests positive for toxicity. It's extremely reassuring. I don't doubt that my health and that of my daughters' and my husband's has benefited as a result. Denine Carr, Attorney, Rochester, NY

"I love working with the GeoResonators and use them all the time for energy balancing environments in my professional work . They are very effective clearing geopathic stress and raising the energetic quality of indoor and outdoor environments." Tika Vales Caldwell Living Design Consultants

I live in Hawaii on six acres of land that includes a stream, bamboo forest and swimming hole. I am a very sensitive person and I noticed since we purchased the property that there was disturbing energy on several parts of the property including an area by the swimming hole. I didn't feel comfortable going to particular parts of our land and avoided going to the area by the swimming hole. Between 24 to 48 hours after planting the GeoResonators I noticed a distinct difference on our land particularly down by the swimming hole. There was an energy of very light relaxed energy; there was a feeling you could say of happy energy. Several people I know commented positively on the change soon after it happened. Jackie Carr, HA

"My wife and I both started experiencing insomnia and stress as soon as we moved into our new condo. At first we thought we needed a new mattress, but that didn't make a bit of difference. We tried melatonin, milk before bed, you name it. Then we heard a radio program on EMFs, and we started looking out the windows at all the electrical stuff, and all the gadgets around our bed. Your company came up best in our research, and since we added SafeSpace 1 in our living room, SafeSpace 2 above our

bed and appliance patches to everything around us, we've slept like babies, and we wake up refreshed. It's changed our lives. Vaughn Wortham, Account Executive, Bangor Maine

The effect of the your products has been transformational! There is simply no other way to say it. Between the SafeSpace 1 and appliance patches in our kitchen and bedroom, our home is a soothing, wonderful place to be, and we all feel happier and sleep better. It's like a whole new life. Thank you. Sincerely. Ciara Livingstone, Seattle, WA

I recently received the SafeSpace product and put it on my water and electric lines. I am someone who was already treating my house with other products, so I didn't expect to notice a difference. Immediately upon putting the products up, I felt more relaxed, as if my house was suddenly enveloped in a protective bubble. My skin feels different, washing in the water. My hair does too. I am very impressed with the product and intend to recommend it to many of my clients and friends. This is a product that works! Joyce Tattelman, Pembroke Pines, FL, Chiropractor

I love the Food Liquid Energizer - I place all my foods and vitamins on it and really notice the energizing effect! When I drink the water I place on this card I love the buzz-I feel "charged". Annie Lombardo - Massage Therapist, Waterloo, Ontario, Canada

My friend and I used the Food-Liquid card at dinner. We couldn't believe the difference in the water that had been treated with the food card versus the water that had not. The untreated water smelt so strongly of chlorine and tasted just as bad. The treated water had been totally transformed. There was no chlorine smell, the texture of the water was smooth and it tasted great. Doreen Vargas, Massage Therapist, Sammamish, WA

I find my Energizer makes everything smoother in taste, but what really blows me away is my improved digestion—this product just brings more harmony to the eating experience all around. I love it! Peter Cooper, Waiter, Bellvue, WA

My doctor told me that the petroleum solvents in my make-up were hard on my body. I was very disappointed to hear this as I have not been satisfied with the "natural" make-up available on the market today. I put all of my make-up on the Neutralizer Card hoping it would solve the problem and when I took the make-up to my doctor to have it tested it worked! So now I Neutralize all of my cosmetics, and personal products. Sandy P. Manning, Receptionist, Plymouth, MI

"I'm so happy to be using these products. These cards test so effectively...better than Tachyonic, Geotech and Clarus products. Thanks for all your help and the blessings that flow through the SafeSpace products." Dr. Andrew Ptak - Chiropractor

With my Vitaplex, I have more energy, and feel sharper. I feel like I have a guardian angel with me, operating through the pendant. My emotional reactions seem healthier and I feel calmer and more at ease on a deeper level. It is difficult to quantify exactly what is happening, I just know that this necklace is something I do not take off." Andrew Tate, Otsego, MI

Extensive HRV testing on people wearing a Vitaplex demonstrated an overall improvement in heart function indicating that the Vitaplex supports greater health and a more relaxed heart as well as improvement in the health of the nervous system and energy field. Dr. Michael Nokken, D.C.  
Minneapolis, MN

The Vitaplex Bioresonant Energy Pendant has given me remarkable immediate results. I began feeling changes within 45 minutes after I started wearing it. I wore it for 9 hours the first day and the next morning I felt revitalized as I had not felt in years! I feel it provides a deeply calming effect while stabilizing fluctuations of energy levels. I am sleeping less hours in a more restful, deeper sleep and feeling more energetic than ever before. I believe it can bring forth resolutions of health issues on all levels for anyone who wears it on a regular basis. Dixie Stevens, Medical Astrologist, Fairfax VA

I suffer from extreme allergic reactions from exhaust fumes... when I wear the Vitaplex on my walk to work I feel protected and don't suffer from the allergic reactions from all the cars and buses. Brenda Albee - Boston MA

I have been a professional Massage Therapist for seven years, and I am also a Personal Fitness Trainer. When wearing the Vitaplex as I work with clients, I have noticed that my energy level has stayed consistent throughout the session, and I do not feel drained afterwards. I also keep the SafeSpace one in the room, and my clients have verbally expressed their restfulness during the session. The SafeSpace products have been an excellent tool for supporting and strengthening the physiology along with developing and raising consciousness." John Costino

I've been wearing my Vitaplex for 9 months now. It has served my overall health tremendously. It can be hard to talk about the Vitaplex and how I feel it on a daily basis, but the clearest evidence of its effect is that I have good energy, good recovery from stressful situations, I haven't been sick since I've put it on, reduced menstrual pain and cycle length. When wearing it, environments I couldn't tolerate well are no longer a problem, apart from not liking a place; the awful waves of bad perfume/cologne that would often make me nauseous still stink, but don't affect me so strongly on a physical level. The thing that stands out to me about the Vitaplex is that all my friends and family who wear them comment on how much they love their Vitaplex every time I see them. Jennifer Carnes, Massage Therapist,  
Minneapolis, MN

As a frequent business traveler to Asia and Europe, I have tried numerous remedies over the years to combat jet lag and reduce travel fatigue. In my experience nothing is more effective than the Vitaplex. On a recent trip spanning 12 time zones, I wore it continuously. There was no jet lag whatsoever, and I felt energized and well rested. I highly recommend the Vitaplex pendant. Don't leave home without it. Leo Burke, Motorola Executive

I used to feel drained by noon after sitting in front of my computer all morning. When I'm wearing my Vitaplex, I can easily work eight to ten hours and still come away feeling alert and energetic. C.H.,  
Computer Programmer, Ottawa, Ontario, Canada

I have three quarters of a century on this body, and generally its' hanging in there. I am very active, traveling much of the time engaging in event presentations all over the US and outside of the US, as well as locally where I reside. However, I have increasingly noticed an energy reduction over the past few years, such that it takes longer to recover from a long weekend of work, or an extended trip; as well there are mechanical wear downs, like inelastic bladder and enlarged prostate. Several months ago, I began wearing a Vitaplex and almost immediately began to notice a balancing of energies, as well as a much faster recovery from extended energy output from long events and long travel. In fact over time it seemed that I slept better and concentrated better. I find I now will not start the day without the VitaPlex, grateful for the energy increase and balancing that results. George Greer; Retired Aerospace Executive, Chicago, IL

For almost all her life my wife has suffered from headaches that don't respond to the naturopathic armory of acupuncture, homeopathy, chiropractic, reiki, herbs, vitamins etc., etc, ... but since she has been using the Vitaplex her headaches have practically disappeared. Jason Andrews, Los Angeles, CA

After using the Vitaplex for a very short while I felt better physically than I had in a long time, I've had more energy, more mental clarity and felt more equanimity... full of heart rested peace and calm. Thanks. KH, Registered Nurse, New Brunswick, NJ

My mother was experiencing spells of weakness, a fainting feeling that couldn't be explained. I gave her the Vitaplex pendant to wear and she seemed to really respond to it! She wore it for 3 days and did not have another attack. Now, it's been months and she wears it every day and feels stronger.

When I wear mine, I love it and feel it as a balancing of my energies. I also have more energy when I travel - it really helps to counter jetlag. Eileen McCarthy, Editor, Montgomery, TX

I used the Vitaplex when going to Ireland. I did not suffer any jet lag going or returning. The whole trip I was relaxed and felt safe and wonderful. People even commented on my calm disposition. During the 12 days in Ireland we did quite a bit of driving in a van with 13 people. A lot of them complained about the stress of too many different places, sleeping, eating etc.. I didn't. I adjusted perfectly. Lark Carrier, Illustrator, Rockford, IL
