

Why Energy Equals Wellness Will Only Recommend  
Aromaland C Verified Hemp Products...

## Aromaland Wellness – The Very Best CBD

**C Verified Hemp - full spectrum CBD + terpenes + other cannabinoids - Zero THC**

*Aromaland's C Verified Hemp Products are American Grown, expertly sourced from licensed and registered Hemp producers, cultivated specifically for a very high CBD content, Non-GMO, CO2 extracted, solvent and pesticide free, are third party tested and are in complete compliance with Federal Law.*

- **American Grown:** Most legal CBD sold in America is from European or Chinese stalk. Stalk is a very poor source of CBD offering 25ppm compared to the 150,000ppm found in Aromaland's specially cultivated CBD rich strain.
- **Independent Testing:** Every batch is tested and the assays are available for review at [cvhemp.com](http://cvhemp.com).
- **Superior Absorption:** Aromaland uses a patent-pending nano-particulate delivery system of micro emulsions. The resulting phyto emulsion droplets range from 10-100 nm in size maximizing bioavailability 3-5 times higher than CBD delivered simply in an oil base.
- **31 Years of Botanical Expertise:** After CBD, the most exciting research from the hemp plant are the aromatic terpenes. These specific terpenes enhance the CBD biological processes. Aromaland Wellness has been experts in delivering aromatics for health for over 31 years.
- **Cultivation:** Aromaland hemp producers are fully licensed and registered with the Colorado State Department of Agriculture. All the PCR (phytocannabinoid) rich hemp used is grown in full compliance under section 7606 of the 2014 Federal Farm Bill.
